PRODUCT INFORMATION SHEET

INSKILL

CRAWLING AND FLYING INSECT KILLER

SPECIAL FEATURES

- Ready to use insecticide
- Contains natural pyrethrins
- AQIS Approved
- APVMA approved in all states
- Value for money
- Biodegradable
- For Domestic or Commercial use

CONTAINS: 2.0 g/L Pyrethrins, 5.0g/L Piperonyl Butoxide

“**INSKILL**” is a ready to use water based space spray that kills insects upon contact. By using natural pyrethrum, the product is relatively non-toxic to warm blooded animals.

“**INSKILL**” should be used through venturi type atomiser units or hand held trigger sprayers.

“**INSKILL**” kills & controls flies, cockroaches, ants, spiders, weevils, mosquitoes, grain moths, flour beetles, silverfish etc.

“**INSKILL**” kills and controls many garden pests: aphids, thrips, moths, beetles, fruit fly etc.

“**INSKILL**” should be used regularly to kill emerging insects before they can re-infest or spread to other areas. Remove or cover any exposed foodstuffs before spraying. Clean the area thoroughly once spraying is completed.

“**INSKILL**” is an insecticide - read directions for use and safety directions before using.

“**INSKILL**” is APVMA approved in all states for crawling and flying insects in commercial and industrial premises.

DIRECTIONS:

This is a ready to use spray. Do not dilute

- Use through Venturi type atomise or hand held sprayers at the rate of 3-5 litres per 1000 cubic metres. Keep doors and windows closed for 30 minutes after application. Use regularly to kill emerging insects before they can re-infest or spread to other areas.
- For flying insects including mosquitos, flies & moths:
Spray several short bursts into the air in the direction of insects at a rate of 0.1ml/m³.
- Crawling insects including cockroaches, silverfish, fleas and ants:
To flush out and kill crawling insects spray into cracks and crevices wherever insects lurk. Apply spray direct to insects where seen. RATE: 25 ml/m².

CAUTION:

BEFORE USE: remove or cover all exposed foodstuffs, dishes and utensils and places where food is prepared or stored.

AFTER USE: Thoroughly ventilate the treated area and clean up the processing/servicing resumes. If food preparation surfaces are contaminated, wash thoroughly with soap and water. Wash and rinse applicator thoroughly. Avoid direct contact with plants.

HEALTH AND SAFETY :

HAND & SKIN CARE:

Wash skin with plenty of water. Remove contaminated clothing and wash before re-use. Seek medical advice (e.g. doctor) if irritation, burning or redness develops.
