

# Dash® HC

An emulsifiable concentrate containing 348.75 g/l (37.5% w/w) oil (fatty acid esters) and 209.25 g/l (22.5% w/w) alkoxylated alcohols-phosphate esters.

#### Risk and Safety Information

#### **Danger:**

Causes serious eye damage.

Causes skin irritation.

May be fatal if swallowed and enters airways.

May cause drowsiness or dizziness.

Toxic to aquatic life with long lasting effects.

Avoid breathing mist.

Wear protective gloves/protective

clothing/eye protection/face protection.

Immediately call a POISON CENTER or doctor/physician.

**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Do NOT induce vomiting.

Dispose of contents/container

to a licensed hazardous

waste disposal contractor

or collection site except

for triple

rinsed empty

containers which

can be disposed of

as non-

hazardous waste.

**To avoid risks to human health and the environment, comply with the instructions for use**

Gross size: 135x130 mm (width x height)

A non-ionic wetting agent to be used with approved pesticides on oilseed rape applied to enhance effectiveness of plant protection products.

An emulsifiable concentrate containing 348.75 g/l (37.5% w/w) oil (fatty acid esters) and 209.25 g/l (22.5% w/w) alkoxylated alcohols-phosphate esters.

The (COSHH) Control of Substances Hazardous to Health Regulations may apply to the use of this product at work (UK only)

#### SAFETY PRECAUTIONS

##### Operator protection

Engineering control of operator exposure must be used where reasonably practicable in addition to the following personal protective equipment:

**WEAR SUITABLE PROTECTIVE CLOTHING, GLOVES AND EYE/FACE PROTECTION.**

However, engineering controls may replace personal protective equipment if a COSHH assessment shows that they provide an equal or higher standard of protection.

**WHEN USING DO NOT EAT, DRINK OR SMOKE.**

**AVOID CONTACT WITH SKIN.**

**IN CASE OF CONTACT WITH EYES, RINSE IMMEDIATELY WITH PLENTY OF WATER AND SEEK MEDICAL ADVICE.**

**IF SWALLOWED, do not induce vomiting: seek medical advice immediately and show this container or label.**

##### Environmental protection

Do not contaminate water with the product or its container (Do not clean application equipment near surface water / Avoid contamination via drains from farmyards and roads).

##### Storage and disposal

**KEEP AWAY FROM FOOD, DRINK AND ANIMAL FEEDING STUFFS.**

**KEEP OUT OF REACH OF CHILDREN.**

On emptying the product container, **RINSE CONTAINER THOROUGHLY** by using an integrated pressure rinsing device or manually rinsing three times. Add washings to sprayer at time of filling and dispose of container safely.

##### For professional use only

**This label is compliant with the CPA Voluntary Initiative Guidance (UK only)**

**This product is approved under the Plant Protection Products Regulations 2011 – UK only**

**This product is approved under S.I. No. 159 of 2012 – Ireland only.**

#### IMPORTANT INFORMATION

**FOR USE ONLY AS A PROFESSIONAL ADJUVANT, as directed below:**

Crop	Pesticides	Maximum spray concentration (% of spray solution)	Maximum number of treatments	Latest time of application
Oilseed rape	All approved pesticides	2.0%	Follow the statutory conditions of use of the plant protection product	Up to and including 10% potential pods (GS 71). Follow the statutory conditions of use of the plant protection product

**READ THE LABEL BEFORE USE. USING THIS PRODUCT IN A MANNER THAT IS INCONSISTENT WITH THE LABEL MAY BE AN OFFENCE. FOLLOW THE CODE OF PRACTICE FOR USING PLANT PROTECTION PRODUCTS.**

## DIRECTIONS FOR USE

**IMPORTANT:** This information is approved as part of the product label. All instructions within this section must be read carefully in order to obtain safe and successful use of this product.

Weed control is not obtained by using Dash HC alone. When using Dash HC with an approved herbicide the conditions of use of the pesticide must be followed.

### Rate of application

Use a maximum concentration of 2.0% DASH HC in the spray solution with any authorised plant protection product and up to and including 10% potential pods (GS 71) in oilseed rape. Dash HC may be tank-mixed with all approved pesticides.

## Mixing and Application

### Mixing

Fill the spray tank three quarters full with clean water and start the agitation. Add the required quantity of Approved pesticide and then Dash HC. Add the remainder of the water to the spray tank and continue agitation until spraying is completed.

On emptying the product container, rinse container thoroughly by using an integrated pressure rinsing device or manually rinsing three times. Add washings to sprayer at time of filling and dispose of container safely.

### Application

Spray quality is determined by the partner herbicide.

**The following does not form part of the product label under the Plant Protection Products Regulations 2005 (as amended) – UK only.**

**The following does not form part of the product label under S.I. No. 159 of 2012 – Ireland only.**

With many products there is a general risk of resistance developing to the active ingredients. For this reason a change in activity cannot be ruled out. It is generally impossible to predict with certainty how resistance may develop because there are so many crop and use connected ways of influencing this. We therefore have to exclude liability for damage or loss attributable to any such resistance that may develop. To help minimise any loss in activity the BASF recommended rate should in all events be adhered to.

Numerous, particularly regional or regionally attributable, factors can influence the activity of the product. Examples include weather and soil conditions, crop plant varieties, crop rotation, treatment times, application amounts, admixture with other products, appearance of organisms resistant to active ingredients and spraying techniques. Under particular conditions a change in activity or damage to plants cannot be ruled out. The manufacturer or supplier is therefore unable to accept any liability in such circumstances. All goods supplied by us are of high grade and we believe them to be suitable, but as we cannot exercise control over their mixing or use or the weather conditions during and after application, which may affect the performance of the material, all conditions and warranties, statutory or otherwise, as to the quality or fitness for any purpose of our goods are excluded and no responsibility will be accepted by us for any damage or injury whatsoever arising from their storage, handling, application or use; but nothing should be deemed to exclude or restrict any liability upon us which cannot be excluded or restricted under the provisions of the Unfair Contract Terms Act 1977 or any similar applicable law.

### Section 6 of the Health and Safety at Work Act (UK only)

#### Additional Product Safety Information

The product label provides information on a specific use of the product; do not use otherwise, unless you have assessed any potential hazard involved, the safety measures required and that the particular use has "off-label" approval or is otherwise permitted under the Plant Protection Products Regulations 2011.

The information on this label is based on the best available information including data from test results.
